Noise control and politicians
The underground will not be wasted
vandalism , police evictions,
they can have their fucking war

Urban shock and counselcases
The underground will not be wasted
Confiscation, A ban on funds,
They can have their fucking war

this ain't law, law, It's a war, war,
they won't kill the protest sounds
this ain't law, law, It's a war, war,
they won't kill the underground

hung up high by jurisdiction
freedom's never cheap

our freedom won't get wasted
the underground won't die

this is our...our freedom
this is our...our freedom
this ain't law, law, It's a war, war,
they won't kill the protest sounds
this ain't law, law, It's a war, war,
they won't kill the underground
