

Disturbance

"Sons Of War"

Visit "[Sons Of War](#)" on MotoLyrics.com

Are they worth anything and do they mean a lot
Moving 'cross the borders, begging to be shot
Will they make it trough the night or will they die today
Will they survive or die without anything to say

Protecting our economy and dying for our family
And fighting a nameless foreign force
Protecting our economy and dying for our family
Setting fire to a desert without cause

Here are the sons of war, here are the sons of war,
here are the sons of war, government's watchdogs,
crawling on all fours
