Royalty, monarchy  
High tea versus anarchy

God saves the queen  
And I'll save my own arse  
God saves the queen,  
But what about us?  
Why is it that we are less?  
Are we just simple white thrash?  
Why is it that we are less?  
Is it that we've got no cash?

God saves the queen  
And I'll save my own arse  
God saves the queen,  
But what about us?  
She's got everything she wants  
Taken out of her private funds  
She's got everything she wants  
And who's crawling through the slums?  
What about us?
