"11 - Devour"

Visit "[11 - Devour](#)" on MotoLyrics.com

Still enough, although I know you're not begging
Still as the thoughts running through your mind
Still enough, although I know you're not begging
Give me a reason to make you mine

I will devour you, take all the pain away
I cannot stay my hand, from reaching out so that I can
Empower you for all eternity
It seems to ease my mind to know that you've brought
meaning to my life

Had enough, although I see you're not running
Still are the thoughts running through your mind
Dead to love, the path that you are now taking
Show me the reason to make you mine

I will devour you, take all the pain away
I cannot stay my hand, from reaching out so that I can
Empower you for all eternity
It seems to ease my mind to know that you've brought
meaning to my life

Run to where the smallest ray of light will never find
you
Run to where you will not need to shield your eyes
Run away from all the soulless, heartless fiends who
hound you
Run away and let your memories go blind, when I

I will devour you, take all the pain away
I cannot stay my hand, from reaching out so that I can
Empower you for all eternity
It seems to ease my mind to know that you've brought
meaning to my life
