Well, here we go again, get up
A little somethin' for your ear hole, get up
Baring a part of my soul again, get up
Disturbed in the house, we're droppin' plates

You said it couldn't be done told me that
It's the kind of battle that just couldn't be won
You know you're too sick, too hard, too fucked in the
head
You'll never make it, no, not in this lifetime

Well, guess again my friend don't act surprised
We got the bass drum kick that will blow out your eyes
'Cause when you hear this shit you'll get to steppin'
Gonna fight the war and use my music as a weapon

You know I'm talkin' 'bout recognition
You know I'm talkin' 'bout vindication

Another goddamn slap in the face
Don't wanna give us a place
Are you afraid?

Well, fear this 'cause I'm breakin' through the walls
Of your nightmare, wake up time to die
The way I'm livin' there is no compromising it
Better get ready for another surprise

And it may leave a mark
Because I'm coming fast
Plantin' thoughts in your mind
And droppin' plates on your ass

Well, here I come
I'm droppin' plates on your ass, bitch
You never mind and you don't need this

Said, here I come
I'm droppin plates on your ass, bitch
You never mind and you don't need

Well, on your mark, here we go again

Well, never mind 'cause you're not number one
You're too hard and from the other side
I think it's time to bring it home again
Right to me

Well, on your mark, here we go again
Well, never mind 'cause you're not number one
You're too hard and from the other side
I think it's time to bring it home again
Right to me

You know I'm talkin' 'bout recognition
You know I'm talkin' 'bout vindication

Well, here I come
I'm droppin' plates on your ass
Well, here I come
I'm droppin' plates on your ass

Say here I come
I'm droppin' plates on your ass
Well, here I come
I'm droppin' plates on your ass

Plates on your ass, bitch
Plates on our ass

Well, here I come I'm dropping plates
I dropping plates
Plates on your ass, bitch
Plates on your ass

Here I come I'm dropping plates
And I'm dropping plates
And then [Incomprehensible]
Here we go again I'm dropping plates

I use my music my weapon
I'm dropping plates
We blew the walls of your nightmare
I'm dropping plates
Well, here we go we're dropping plates
