Raaaaaow!

Get psycho!
I wanna get psycho,
Get psycho!
I wanna wanna wanna
wanna get psycho.
Run you little bitch
I want your power glowing, juicy flowing,
Red hot meaning of life.
It's not enough to have a little taste
I want the whole damn thing, now
Can you dig it?
Need to get psycho
Want to hear you say it
Say you want it, need it
Don't wanna wait until we finish the show
It's not enough, you hunger for more
You're one twisted little fuck
And now you wanna get psycho with me

Give in, give in, decide
Give in, give in, give in, decide
Give in
Give in, give in, decide
Give in, give in, give in, decide
Give in

Get psycho, I wanna get psycho
Get psycho, I wanna wanna wanna wanna
I wanna get psycho
Scratch my itch
Give me your power glowing, juicy flowing,
Red hot meaning of life.
It's not enough to have a little piece
I want the whole damn thing, now
Can you dig it?
Need to get psycho
Want to hear you scream
Tell me to take you, scare you, fuck you
After we finish the show
It's not enough

You listening whore?
You're one twisted little fuck
And now you want to get psycho with me

Give in, give in, decide
Give in, give in, give in, decide
Give in
Give in, give in, decide
Give in, give in, give in, decide
Give in

I can feel the blood flowing through my veins spilling
on my soul
And now the hunger's getting bigger
Come a little closer now pretentious whore and pull my
trigger
Free the violence that is building in me
I say now end of the ride murder suicide is how I've
been feeling lately
Come a little closer now pretentious whore,
I'm reeling with a feeling that I can't ignore
Come a little closer now pretentious whore,
I'm reeling with a feeling that I can't ignore
Come a little closer now pretentious whore,
I'm reeling with a feeling that I can't ignore
The need to get psycho
Is not a question to me

Get get get get, get psycho
Get get get, I wanna get psycho
Get get get get, get psycho
Get get get, I wanna wanna wanna
Get psycho, get get get
I wanna get psycho, get get get get
Get psycho, get get get
I wanna get psycho, wanna wanna wanna wanna
