Now you tell me you like it  
You tell me you want it  
You're mine  
And you don't need another one

Come on and tell me you like it  
Tell me you want it  
You're mine  
And another one to me

Now you tell me you like it  
You tell me you want it  
You're mine  
And you don't need another one

Come on and tell me you like it  
Tell me you want it  
You're mine  
And the world will get you high

What can you take from me  
That which you cannot buy  
Exhilaration  
Laughing and turning away

What will you take from me  
Now that you are inside  
Intoxication

Now are you feeling  
Enough to vilify what I love  
To sanctify all I hate  
Endowed with the need  
To carry over the life I lead

Now you tell me you like it  
You tell me you want it  
You're mine  
And you don't need another one

Come on and tell me you like it  
Tell me you want it

You're mine  
And another one to me

Now you tell me you like it  
You tell me you want it  
You're mine  
And you don't need another one

Come on and tell me you like it  
Tell me you want it  
You're mine  
And the world will get you high

What can you take from me  
That which you cannot buy  
Exhilaration  
Laughing and turning away

What will you take from me  
Now that you are inside  
Intoxication

Now are you feeling  
Enough to vilify what I love  
To sanctify all I hate  
Endowed with the need

Intoxicating  
Enough, to vilify what I love  
To sanctify all I hate

Endowed with the need  
To carry over the life I lead

Now you tell me you like it  
You tell me you want it  
You're mine  
And you don't need another one

Come on and tell me you like it  
Tell me you want it  
You're mine  
And another one to me
