An' get psycho
I wanna get psycho
An' get psycho
I wan', I wan', I wan', I wan'

I wanna get psycho, run, you little bitch
I want your power glowing, juicy flowing
Red hot meaning of life
It's not enough to have a little taste
I want the whole damn thing an' now
Can you dig it?

Need to get psycho, wanna hear you say
You say, you want it, need it
Don't wanna wait until we finish the show
It's not enough, you hunger for more
You're one twisted little fuck
And now you wanna get psycho with me

Give in, give in, decide, give in
Give in, give in, decide, give in
Give in, give in, decide, give in
Give in, give in, decide, give in

An' get psycho
I wanna get psycho
An' get psycho
I wan', I wan', I wan', I wan'

I wanna get psycho, scratch my itch
Give me your power glowing, juicy flowing
Red hot meaning of life
It's not enough to have a little piece
I want the whole damn thing an' now
Can you dig it?

Need to get psycho, wanna hear you scream
Tell me to take you, scare you, fuck you
After we finish the show
It's not enough, you listening, whore?

You're one twisted little fuck

And now you wanna get psycho with me

Give in, give in, decide, give in
Give in, give in, decide, give in
Give in, give in, decide, give in
Give in, give in, decide, give in

I can feel the blood flowing through my veins
Spilling on my soul
And now the hunger's getting bigger
Come a little closer now, pretentious whore
And pull my trigger

Free the violence that is building in me
I say, now end of the ride
Murder, suicide
Is how I've been feelin' lately

Come a little closer now, pretentious whore
I'm reelin' with a feelin' that I can't ignore
Come a little closer now, pretentious whore
I'm reelin' with a feelin' that I can't ignore
Come a little closer now, pretentious whore
I'm reelin' with a feelin' that I can't ignore
Need to get psycho is not a question to me

Get, get, get, get, get psycho
Get, get, get, I wanna get psycho
Get, get, get, get, get psycho
Get, get, get, I wan', I wan', I wanna

Get psycho, get, get, get
I wanna get psycho, get, get, get, get
Get psycho, get, get, get
I wanna get psycho, wan'
I wan', I wan', I wan', I wan'
