(Never again, never again)

They have a frightening desire for genocide  
They wouldn't stop til what what was left of my family  
died  
Hell-bent on taking over the world  
You couldn't hide in the shout of conformity  
We can't forget how we were devastated by the beast  
And now we pleaded with the captors for release  
We were hunted for no reason at all  
One of the darkest times in our history

All that I have left inside is  
A soul that's filled with pride  
I tell you never again  
In a brave society  
Didn't end up killing me  
Scream with me, never again  
Not again

A generation that was persecuted endlessly  
Exterminated by the Nazi war machine  
We will remember, let the story be told  
To realize how we lost our humanity  
You dare to tell me that there never was a Holocaust  
You think that history will leave the memory lost  
Another Hitler using fear to control  
You're gonna fail this time for the world to see

All that I have left inside is  
A soul that's filled with pride  
I tell you never again  
In a brave society  
Didn't end up, killing me  
Scream with me, never again  
Not again

All that I have left inside is  
A soul that's filled with pride  
I tell you never again  
In a brave society  
Didn't End up killing me

Scream with me, never again

For the countless souls who died  
Their voices fill this night  
Sing with me, never again  
They aren't lost, you see  
The truth will live in me  
Believe me, never again
