Tell me you like it
Tell me you like it

You say, you found yourself a new sound
The shit's loaded and ready to go
A bit too much just like the old sound
Already heard it for the hundredth time

One hundred more, all have the same sound
Running around with all the sheep that you know
It's so sublime, they're breaking new ground
They're sure to have another hit this time

Come on
Can't you just leave it alone
It doesn't have any soul
Just find a thing of your own
And stop pretending to know

As the countless numbers hunger for world wide
renown
All the pimping sons of plunder will roll up their sleeves
All searching for the answers they don't even care to
know
Give it to me, give it to me
You like it?

I'm still surrounded by the new sound
I've had enough and I'm ready to go
I'll stranglehold throughout the world now
The new obsession will fade in time

A thin reminder of the past now
All convoluted hardly ready to go
Their whines and moans will never last now
I think you've given us a fill this time

Come on
Can't you just leave it alone
It doesn't have any soul
Just find a thing of your own
And stop pretending to know

As the countless numbers hunger for world wide
renown
All the pimping sons of plunder will roll up their sleeves
All searching for the answers they don't even care to
know
Give it to me, give it to me
You like it?

As it's blown apart, hundreds thrown away
Makes me question just what I believe
Brothers torn apart, mindless drones enslaved
Makes me search for an answer, I don't want to know

It's like a plague from below
Killing all that I know
One hundred voices the same
Drench their sorrow in fame

As the countless numbers hunger for world wide
renown
All the pimping sons of plunder will roll up their sleeves
All searching for the answers they don't even care to
know
Give it to me, give it to me

As the countless numbers hunger for world wide
renown
All the pimping sons of plunder will roll up their sleeves
All searching for the answers they don't even care to
know
Give it to me, give it to me
You like it?

Tell me you like it
Tell me you like it
Tell me you like it
Tell me you like it
