You will remember this moment  
As you dig into me  
And from your smile now  
It seems as if you liked it  
You'd better cherish this moment  
As you dig into me  
You'll never get another chance  
At this

I won't stand another minute  
Of your questioning me  
You hear me, bitch, stop  
The interrogations over  
I can't handle the feeling  
Of your pestering me  
How would you like  
To make my favorite list

No you can't renege  
I love to see you beg

Dream this moment as you run away  
You will only separate me from  
All I believe this moment  
In brutality  
You're the one who on kept on pushing  
Til I made you bleed

It seems your pride has been stolen  
Since you stood up to me  
I'll tell you now you know I think I  
Really like it  
So learn a lesson from someone  
Who will never repeat the many  
Tragic mistakes of his past

I hope you savor this moment  
As you're still on your feet  
So keep it quiet now  
I think you're gonna like it  
Words have consequences when  
They're spoken to me

You better be careful when you're writing checks

Don't you question how  
I stand above you now I'll

Dream this moment as you run away  
You will only separate me from  
All I believe this moment  
In brutality  
You're the one who on kept on pushing  
Til I made you bleed

Now you know the answer  
Save yourself from danger  
I cannot forget how all of this began  
I know you know the answers  
Save yourself from danger  
Beaten by a stranger  
Blood still on his hands

Dream this moment as you run away  
You will only separate me from  
All I believe this moment  
In brutality  
You're the one who on kept on pushing  
Til I made you bleed
