"Break You Down"

Ignorance and arrogance go hand in hand
I know who you are and I know where you stand
Ashamed hang your head down low
Fucked by power and inflated ego
Pre-Chorus
You gotta mean what you say
Stand by for the pain
Yea!
Verse 2
Spew your bullshit like a fucking machine
Hands around your throat, cannot breathe
Stand so tall but your spine is soft
Look in my eyes punk your soul is lost
Repeat Pre-Chorus Chorus
I will make you
I will take you
I will break you down
I will take you
I will make you
I will break you down
Verse 3
Step on people, get what you need
Step on me bitch and i'll make you bleed
Tried a million times in my mind
Say your peace and say your last goodbye
Repeat Pre-Chorus and Chorus
