I've let myself unfold,
Watching you grow cold.
My life has grown old, tired, and slow...,
(pre-chorus)
I'm venting! This built up intensity!
It's pain I'm fighting...
I'm venting!
(chorus)
I don't give a fuck!
Anymore, I don't give a fuck!
Do what you're told?
Don't ever let them hold you back!
Open up your mind,
Open your heart and fight back!
Let it all hang out,
Fuck shit up without a doubt...
Just let it all hang out!!
(repeat pre-chorus)
(repeat chorus)
I've let myself go,
I've let my mind go...
(repeat chorus)
