Verse 1

When I looked in your eyes
I stepped inside your empty mind
I saw inside your soul
Tired of all the lies you told

Pre-Chorus

How long before you see?
I can't take everything that's
Inside shows my hate

Chorus

I see through all the lies you told
I lost all hope and control
You can't go on hurting me
You'll be your own sacrifice

Verse 2

Trust me i'll never forget
All of the hurt and the anger you spread
You have yourself to blame
Hang your head to me in shame
Repeat Pre-Chorus and Chorus

Bridge

Take a look, now you will see it
You won't stand a chance with me
Nose to nose face to face
Your apology is way too late, way too late
Repeat Chorus
