(Chorus)

I can*t believe you walked out on me and left me here
all alone

There was nothing wrong

You left me standing cold I cannot believe that you*re
gone

There was nothing wrong

(Verse One)

I look unto the way me and you have parted ways

It still kills me cause I couldn*t see the end of our days

Repeat Chorus

(Verse Two)

We had something good so special and true you threw
it away

And now I can*t trust even though I must go on today

Repeat Chorus
