Let's take this till morning
Cause I don't want this to end tonight
Pieces start to fall in
All the places we missed last time

And you can't deny the truth you're not an angel as you
claim
But it's that part of you I crave

Don't leave me now
I'll find the words to make you stay
I won't let you down this time
Don't throw this away
I've made that mistake
I pay for it every time I hear your name
Don't leave me now
I won't let you down
This time

Let's write another ending
I never wanted to let you go
We could start from the beginning
There was so much you didn't know

And you can't deny the truth you're not an angel as you
claim
But it's that part of you I crave

Don't leave me now

I'll find the words to make you stay
I won't let you down this time
Don't throw this away
I've made that mistake
I pay for it every time I hear your name
Don't leave me now
I won't let you down
This time

The stars are all in line
And I've waited all this time
For another chance with you

Don't leave me now
I'll find the words to make you stay
I won't let you down this time
Don't throw this away
I've made that mistake
I pay for it every time I hear your name
Don't leave me now
I won't let you down
This time
Let you down
