And now the day are getting longer
And I'm losing track of time
I try to make it on my own
But another failures all I find
I'm falling faster
Can you help me find the truth
Through all of the lies
Through the goodbyes
My sunshine
Your eyes are softer
Than a bright rose in the summer sun
Where we once walked
And I knew you were the one
Who would pull me through
When I lose my faith
And turn my back on you
You still love me
But I can't see why
So overwhelmed
So undeserving
I'll try to sleep tight
But the guilt it takes control
Because I know
You're the only one who can console me
But I threw it all away
Please stay here
Please stay here with me
My sunshine
Your eyes are softer
Than a bright rose in the summer sun
Where we once walked
And I knew you were the one
Who would pull me through
When I lose my faith
And turn my back on you
You still love me
But I can't see why
I'm screaming out for you
Oh my God
I'm screaming out for you
My father
My savior

My God
