I been thinkin' a lot 'bout you lately
Sittin' here wasting my time
You know that my dreams don't come easy
I lost them before it's no lie

It isn't so hard when you know me
To see where my thoughts go astray
My feelings for you they control me
I'm lost in your world night and day

And I want you to feel that way too
Love me like I'm lovin' you
Pick me up when I'm blue
Know in your heart that it's true

I been seein' a lot of you lately
Not as much as I want to sometimes
We both have our lives to be leading
And I can't always be by your side

If you see insecurity showing
Don't turn me out in the rain
I have nowhere else to be going
And it's here that I want to remain

And I want you to feel that way too
Love me like I'm lovin' you
Pick me up when I'm blue
Know in your heart that it's true

Have I told you, how I want you
Now I told you, and I want you today

And I want you to feel that way too
Love me like I'm lovin' you
Pick me up when I'm bluer than blue
Love me like I'm lovin' you
