"Tied"

Visit "[Tied](#)" on MotoLyrics.com

In the heart of the night, you come on like fire
In the light of dawn, leave me cold and tired
When you think of love, tell me what you see?
And when you dream, do you dream of me?
Feel the passion deep inside
It's in your blood and you just can't hide

You want some lovin' but your heart's tied up
Try to run but you can't say stop
Hold me baby take me higher
Take a chance, set your world on fire
You want some lovin' but your heart's tied up

Now the truth is out honey, can't you see?
I'm tied to you and you belong to me
But when we get too close, I feel you push away
Nothin' I do is gonna make you stay
Tears are clashin', worlds collide
You won't let go and you don't know why

You want some lovin' but your heart's tied up
Gimme fever, you burn me hot
Touch me baby, walk the wire
Tell me no, then your heart's a liar
You need some lovin' but your heart's tied up

Try to run but you can't say stop
Hold me baby, take me higher
Take a chance, set your world on fire
You need some lovin' but your heart's tied up

Hold me baby, take me higher
Touch me baby, walk the wire
Roll me darling, light my fire
Spread your wings and love somebody
