Listen honey can't you see  
That I'm the one that's gonna show you love  
And make you feel so much pleasure  
Don't waste the feeling  
Just go with the flow  
When your body's next to mine  
You're giving up that sexy vibe  
I wanna take you to another level baby  
And when you get that special feeling  
All you gotta do is call me up oh  
I'll give you good and plenty of it  
When you're feeling down and low  
All you gotta do is let me know, yeah  
I'll give you good and plenty of my love  
Hey, hey sugar the time has come for you to  
let down your guard and accept all of my  
Precious treasures  
I'll share my secrets and open my heart to you  
It can only get sweeter baby  
I'm gonna take the time  
To make your love all mine  
Come let me take you to another level baby  
And when you get that special feeling  
All you gotta do is call me up, oh  
I'll give you good and plenty of it  
When you're feeling down and low  
All you gotta do is let me know, yeah  
I'll give you good and plenty  
When Your body's next to mine  
You're giving up that sexy vibe  
I'm gonna take you to another level baby, oh  
Repeat 1 until fade
