Standing with your boys on the corner
I see them look at me walking by
But they don't understand how I'm feeling
'Cause boy you are the apple of my eye

I never thought, no never
That I'd find someone to love me like you do
I never thought in a million years, that you
Would make every one of my dreams come true

Baby there ain't no need for you to worry
'Cause you can turn your back on me
You know that I'll still be waitin'
Right under the sycamore tree

You're all I see, you're all I see
I won't let nobody ever come between you and me
See, you're all I see, every time they step to me
I don't pay them any mind, it's all about you and me

I never thought, no never
That I'd find someone to love me like you do
I never thought in a million years, that you
Would make every one of my dreams come true

Baby there ain't no need for you to worry
'Cause you can turn your back on me
You know that I'll still be waitin'
Right under the sycamore tree

You're all I see, you're all I see
I won't let nobody ever come between you and me
See, you're all I see, every time they step to me
I don't pay them any mind, it's all about you and me

As clear as the sea, blow around tropical breeze
I see only we seven seas seven stars
Cooling at the park down in Nassau
Just think, you and me, love, say it's all
Move your lips slow, come close to my ear
It's here my dear where your fears come clear

There's little time left to escape and make best
All I see is three to complete, making sweet sugar
Honey, all I see, all we need, the true life is when
We can just be, I never thought in a million years
That you would make every one of my dreams come
true

I never thought, no never
That I'd find someone to love me like you do
I never thought in a million years, that you
Would make every one of my dreams come true

Baby there ain't no need for you to worry
'Cause you can turn your back on me
You know that I'll still be waitin'
Right under the sycamore tree

I never thought, no never
That I'd find someone to love me like you do
I never thought in a million years, that you
Would make every one of my dreams come true

Baby there ain't no need for you to worry
'Cause you can turn your back on me
You know that I'll still be waitin'
Right under the sycamore tree

I never thought, no never
That I'd find someone to love me like you do
I never thought in a million years, that you
Would make every one of my dreams come true

Baby there ain't no need for you to worry
'Cause you can turn your back on me
You know that I'll still be waitin'
Right under the sycamore tree
