When you know she can't be found
Through those times you're feeling down
You know my love, my love, my love will be around
Any time you need a friend and your girl won't let you
in
You know my love, my love will always be right here

Every time I see you with tears in your eyes
I get so upset because I know in my mind
She's why you're down but I can't say one word

'Cause I know you know that your girl is hurting you
You need to let her go, she never wants to be around
In your trying times but I'ma let you know
That I'll be there for you

When you know she can't be found
Through those times you're feeling down
You know my love, my love, my love will be around
Any time you need a friend and your girl won't let you
in
You know my love, my love will always be right here

Every time I see you kissing her so sweet
I get so mad 'cause she don't deserve
All the love that she receives but it's
Not my place to ruin your happiness

'Cause if you tell me that it's love then why are you
Never happy when she hurt you, it hurts me too
To see her put you through this pain but I'ma let you
know
That I'll be there for you

When you know she can't be found
Through those times you're feeling down
You know my love, my love, my love will be around
Any time you need a friend and your girl won't let you
in
You know my love, my love will always be right here

Baby you know, you know when she can't be found

Baby you know, you know when she can't be found

When you know she can't be found
Through those times you're feeling down
You know my love, my love, my love will be around
Any time you need a friend and your girl won't let you
in
You know my love, my love will always be right here

When you know she can't be found
Through those times you're feeling down
You know my love, my love, my love will be around
Any time you need a friend and your girl won't let you
in
You know my love, my love will always be right here

When you know she can't be found
Through those times you're feeling down
You know my love, my love, my love will be around
Any time you need a friend and your girl won't let you
in
You know my love, my love will always be right here
