U Shook Me (all night long)
Ladies and gentlemen thank you for coming out
Right about now I'd like to uh, share with you a little
story about breaking up and making up
Ya'll ready?
Here we go

My man & me
We've been having some troubles for quite
sometime
I decided it was high time yeah
That we just take a little break
Next thing you know
He called up from the car outside and said

Baby when it's cold outside
Who else can I call to hug and kiss
Through the night?

He shook me all night
U shook me all night long
I swear I'll never leave you again
U shook me all night
U shook me all night long
I'm glad we're back together again

Last night was the best night of my life
The way you made love to me whoo
I swear love can move mountains
Yes it can and now I realized that
Nobody can love me quite like you
I'll do whatever, whatever you want me to do

He shook me all night
U shook me all night long
I swear I'll never leave you again
U shook me all night
U shook me all night long
I'm glad we're back together again

Baby when it's cold outside
Who else can I call to hug and kiss
Through the night?

He shook me all night
U shook me all night long
I swear ill never leave you again
U shook me all night
U shook me all night long
I'm glad were back together again
