We're in the starting line of the path  
The Path you had left, the path you abandoned yeah

You Followed The Light at the end of the tunnel  
You Said Goodbye with a Weak Breath

Your Body Now Is resting and your soul  
Is in the eternal grace

Have For Sure your legend Wont Die ÂiÂi  
We Will Remember You, as a heroine

Nobody Could Deny That,  
It's So Hard to get out of this Sorrow

It's Such A vicious circle, a neverending black road  
There are many questions in my mind

It's Such A vicious circle, a neverending black road  
There is a question in my mind

Will We Have Someone Crying For Us?  
Will We Have Someone Crying For Us?  
Will We Have Someone Crying For Us?  
Will We Have Someone Crying...

Have For Sure  
Your Legend Wont Die

Your Body Now Is resting and you soul  
Is in the eternal grace  
Your Not Here [Your Not Here]  
Your Not Here [Your Not Here]

It's Such A vicious circle, a neverending black road

Will We Have Someone  
Will We Have Someone  
Will We Have Someone  
Crying For Us?
