Welcome to a new perspective. Say hello, say hello.  
Every sheep in this place is a wolf, We will run until we  
get home.  
Again and again I can feel all their eyes over me...  
Their eyes over me.  
Everyone, Every place I knew once is something:  
I barely know now (x3)

Everything you ever wanted, has fallen from a Cliff  
without a parachute,  
But we'll be safe, we'll be safe in the distance. Safe in  
the Horizon.

Let's dream, let's soar. Let's fool this cruel reality.  
Let me to write, some words on your pristine skin.  
Forget the gravity, catch a deep breath  
Watch out for the wolves.  
Don't dare to wake up.

Don't dare to wake up (x3)

Everything you ever wanted, has fallen from a Cliff  
without a parachute,  
But we'll be safe, we'll be safe in the distance. No one  
can't stop us now.

All the stars, don't shine the same, and all these blights  
can't take us to the end.  
Let me to fight despite all overwhelming odds.

Can our lives be safer? Can my existence be much  
brighter?  
Can our bodies be like feathers? Can my existence be  
much brighter?  
Can my existence be much brighter?

I represent a home for you, a shelter for your visit.  
I represent a home for you.(x2)

Everything has fallen from a Cliff without a parachute.  
But we'll be safe: in the distance (x2)

Don't dare to wake up (x2). Not now, not now.  
Let me to pour some thoughts over your memory.  
Not now, not now. Don't dare to wake up.

Let's dream let's soar. Let's fly away  
Let's dream let's soar. Let's fly away
