Now that we've got your attention  
All else is clear  
Must step to the plate  
And redefine our fate  
This inception a new direction  
Turning the page  
All eyes are upon us  
This time is for real  
Make no mistake

Driven by spite  
Burning to rise  
And disprove all  
Who would take comfort  
In our demise

Conquering the sum of fears  
These screams all seemed in vain  
Frustration desperation met with disdain  
But as passion turns to madness  
Obsession reigns  
For honor of this legacy  
Defiant we remain

Savior self from the strife of this world  
That's all that we've know  
Savoir self from the knife to your throat  
And hold to your own

The prime objective forced to achieve  
Sacrifice the present for greater future gain  
To retain some validation  
For the choices we have made  
As well as restitution for the sacrifices waged

Savior self from the strife of this world  
That's all that we've know  
Savoir self from the knife to your throat  
And hold to your own

Savior self from the strife of this world

That's all that we've know  
Savoir self from the knife to your throat(savior self!)  
And hold to your own

Driven by spite  
Burning to rise  
And disprove all  
Who would take comfront in our demise
