Licking the open wounds  
On your serpent's skin  
Oh! the devil's concubines are  
Loving you in sin

The red velvet sheets  
Crying blood and pain  
Bodies touching bodies  
Death flows in your veins

Naked woman in the fire  
A touch of Evil in your soul  
Kisses of false desire  
Down in a hole

Divine Lust  
A trip to the unknown  
Joined in carnal pleasure  
Satan's wings cover the Sun  
Under the candle light  
Illusions passing through your eyes  
Divine lust  
A world of love and lies

The night embraces the moon  
Aphrodite comes to love you  
Your flesh burns in sweet delight  
While women's mouths are burnin' too

The children cry at moonlight  
Driving you insane  
A dying wish comes to your mind  
In this bed of ex and pain
