November rain, all is cold and grey  
My heart's been shaken  
Help me see your way

You hear my prayers  
You see the poor in spirit

Even at my lowest point  
There's one way to go  
I will survive  
Even at my lowest point

There's hope to find  
Your word is strengthen me  
I made my mistakes  
But I never lost my faith in you

I can give you whatever you want  
I can give you women and gold  
Just give me your soul, just give it to me  
Ha Ha

I carry on, until the work is done  
One day I will see the throne  
I carry on, I am your daughter I am your son  
My father, you'll never leave me alone
