All alone the way

Every single moment
You look at now for me
You are the burning fire
Who lives inside of me

I'm living in this world
The time is very closer
Closer to the end
But I know my heart... yeah!

You save me, You guide me
I never understand your Love
You are the Hero of my life
You love, You see me
You are the Master of it all
You are the Hero of my live
The Hero of my life

I face all the day

Every since that day
When I gave my heart to you
You are the One see
The man I want to be

I'm living in this world
The time is very closer
Closer to the end
But I know my heart's

You save me, You guide me
I never understand your Love
You are the Hero of my life
You love, You see me
You are the Master of it all
You are the Hero of my live
The Hero of my life
