And, would you dance a waltz with me?  
The air would blow and my skirt would flow  
And, would you dance a waltz with me?  
And we would go to this place I know

Ref:

And we would forget about the rest  
We would escape all the details  
We'd be the movement  
And it'd whirl  
And it'd whirl

And, would you lead the waltz for me?  
The sun would glow on the radiant snow  
And, would you lead the waltz for me?

And we would go on waltzing till we float

Ref:

And we would forget about the rest  
We would escape all the details  
We'd be the movement  
And it'd whirl

And we'd forget that  
Besides, I'm shit faced  
And my freckles are a mess  
And I want you, to embrace me  
And I want you, to embrace me  
'Cause I am cold, and I'm alone
