

Divinyls "For A Good Time"

Visit "[For A Good Time](#)" on MotoLyrics.com

That cheap little thing u drive It's just cold machinery
I'll make you come alive u ought to be with me
For a good time
I said life goes by so fast So baby you might as well live
Cause nothin's gonna last I don't know nothing that I
wouldn't give
For a goodtime For a goodtime For a goodtime

You better check your priorities If I'm gonna be your girl
U gotta dress me with your degrees
Cause baby god made the world for A good time yeah
A woman and a man Were made so perfectly
I am what I am Baby put your faith in me
For a good time, For a good time, For a good time

I like to watch your mouth I'd like to take it south
The heart in my breast Is beating me to death
This is a cruel town I'll make you feel like a king
And when you lose your crown All you gotta do is give
me a ring
For a good time, For a good time, For a good time
