(Amplett, McEntee)
I get stormy
When things bore me
I get steamed up
When you ignore me
I don't need some bland sky
Staring back at me
I need a bad guy
I want some electricity
I need fire
I got sensual desire
That's what my body
And my nature
Does require
Ooh don't you be so cold
I need some body and soul
Yeah don't you be a fool
You need to go to the love school
Don't need your detachment
Waiting for the storm to pass
Don't need reenactment
Of things that have happened
In the past
I don't need some joker
Making fun at me
I need a lover
I want some sensitivity
I need fire
I got sensual desire
That's what my body
And my nature
Does require
Ooh don't you be so cold
I need some body and soul
Yeah don't you be a fool
You need to go to the love school
I need fire
I got sensual desire
That's what my body
And my nature
Does require
Chorus

I don't want anybody else
Because I don't want anybody else
