Pick me up and slap me around
Break my back with an awkward sound
Such a blast to be your toy
Bring it on cuz IÂ've been a bad boy
Animal party boy

From that house an awful sound of time flickering
around
Behind those trees someone got free from all
wondering and worrying and everything

I piss on you
Cuz all good work made me come right through
Too many necks and not enough rope
Too many pricks, not enough assholes
Animal junkie boy

From that house an awful sound of time flickering
around
Behind those trees someone got free from all
wondering and worrying and everything
From that house an awful sound came out echoing
around
Behind those trees someone got free from all
wondering
Behind that door upon the wooden floor there was
more
Even more than before
