I will never run you got nothing on me
KGB I know that you can't see me
I will never hide that's just not my way
CIA don't know what I did today

[Chorus]

Who are you asking, who are you asking for?
they live by my lies, they live by my lies

Can you hear my call from the underground?
KGB you know that I can't be found
different from before but I'm still the same
CIA you know that I won't be afraid

[Chorus x2]

I will never run, you got nothing on me
I will never hide, that's just not my way
You don't know what I did today
