I will never run you got nothing on me
KGB I know that you can't see me, oh
I will never hide that's just not my way
CIA don't know what I did today, oh

Who you asking, who you asking for?
They live by my lies, they live by my lies

Can you hear my call from the underground?
KGB you know that I can't be found
Different from before but I'm still the same
CIA you know that I won't be framed, oh

Who you asking, who you asking for?
They live by my lies, live by my lies

Who you asking, who you asking for?
They live by my lies, they live by my lies

I will never run you got nothing on me
I will never hide that's just not my way
You don't know I did today
