As I sit here in silence,  
I feel that I'm not alone  
Can't speak, can't seem  
To find the words  
And my heart is in my throat

Don't want it to hurt  
I'd rather stare and look  
Staring at these lines waiting to unfold  
At the edge it feels hard

I never thought it'd be like this  
We crossed that bridge one last kiss  
Goodbye

I tried to understand the differences we share  
Hoping that time would work them out  
Because the compromise would be unfair

To me and to you  
We'd just fall apart  
Short of one another just to save our hearts  
I never intended to desert you  
But I can't ignore this calling from inside

I never wanted it like this  
Can't dismiss the will to make this line

Well I guess that this is it  
Let's make this quick  
One last kiss goodbye
