"Love is in your hands"

I've tried to find a way to love you
I've tried to keep my love inside
I can stand what you get used
Please let my dream comes true
I need your smile to make me stronger
I need your love to carry on
Open your heart and stay with me
Show me what a love can be
You are all i need
Ooo my love is in your hands
Ooo please try to understand
Ooo my heart is full of dreams
Ooo take away my fears
All my memories are wake and nice
I see pain in your eyes
All your tears,are they all live lives
with my lonely nights
Your love is all i need from you
Your touch is only thing i need
Spread your head down on me
Show me what a love can be
You are all i need
Ooo my love is in your hands
Ooo please try to understand
Ooo my heart is full of dreams
Ooo take away my fears
