I've found a new planet That only I can see Just came  
back to get you Let's leave this misery Nothing can  
reach us So far from harm's way Only sunshine We've  
got to get back there And rainbows every day Hurry up  
and get your things The countdown has started For  
what I'm thinkin' of Go ahead, try on these wings Don't  
need no spaceship That I'd take you Didn't I tell you To  
the planet of love I got tired of losin' But now I'm in  
control So help me start packin' We don't have far to go  
I found a new planet Don't revolve around the sun We'll  
make a new start there The journey's just begun Won't  
get into trouble In our new world so far above Didn't I  
tell you That I'd take you To the planet of love Didn't I  
tell you To the planet of love That I'd take you
