

Dixie Chicks "Whistles And Bells"

Visit "[Whistles And Bells](#)" on MotoLyrics.com

Whistles and bells won't ever bring you love and
happiness
She's never gonna give her heart the way that I would
give
She's got you spinning round in circles, I can tell
With her lights, buzzers, whistles and bells

I see her running round this town in her fancy car
A girl who can't afford your hopes and dreams
But darlin' all those pretty toys won't help your broken
heart
When she's through and sends you packin' back to me

Whistles and bells won't ever bring you love and
happiness
She's never gonna give her heart the way that I would
give
She's got you spinning round in circles, I can tell
With her lights, buzzers, whistles and bells

I cried those lonely tears until the day I realized
That you were hurting so much more than me
There are some things in this world that just don't have
a price
Like the love that waits here for you patiently

Whistles and bells won't ever bring you love and
happiness
She's never gonna give her heart the way that I would
give
She's got you spinning round in circles, I can tell
With her lights, buzzers, whistles and bells

She's got you spinning round in circles, I can tell
With her lights, buzzers, whistles and bells
