And in the light
The dance begins
The piper plays his song of love
We cast our dreams into the wind
And mother earth spins on and on
The beauty can not be believed
Just can't define the space I'm in
I tried to find the door to leave
Before my eyes the dream begins

(Dream maker)
Arriving in a ship of light
(Dream maker)
Princess of the moonlight
(Caretaker)
A ghost in the dead of night
(Dream maker)
Spread your golden wings and fly

There in the wind
I catch the light
A carving was made that night
I pledge my soul
The piper played
Into that mystic serenade

(Dream maker)
Arriving in a ship of light
(Dream maker)
Princess of the moonlight
(Caretaker)
A ghost in the dead of night
(Dream maker)
Spread your golden wings and fly
