

Billy Thorpe **"Free Enterprise"**

Visit "[Free Enterprise](#)" on MotoLyrics.com

Your on the street
Doing the best you can
Pushing to the limit
Fighting to survive
If you can't earn a living
As a working man
Its time you got a partner in a free enterprise

Pushing to the limit
Fighting to survive
Its time you got a partner in a free enterprise

You may call it viscious
You may call it vice
But if your ambitious its the only life
Don't worry bout the killing
But you can get advise
They only talk about it in a free enterprise

Don't worry bout the killing
You can get advise
Its time you got started in a free enterprise

You can think its viscious
Everyone gets high
Talk to some politicians
Get some business on the side
Your gonna be in trouble if you ever realize
The things that make a profit in a free enterprise
