Your foolin yourself
If you think that dreams don't change things
You can make it alone all by yourself
There's no secret place
Which holds all the answers for you
You'll find them all there inside yourself

Loneliness is a lonely road
Why take the long and lonely road
Hold on to your dreams
Hold on to the light
Hold on to your dreams
Hold on to the one

Life is a book
We're learning to paint by numbers
You make up the colors as you go
And if this grows
Should add up and make a rainbow
Darlin don't ever let it go

Loneliness is a lonely road
Why take the long and lonely road
Hold on to your dreams
Hold on to the light
Hold on to your dreams
Hold on to the one
