Two strangers in a room
Speak first with our eyes
We both feel the spark
We dance to a lovers song
It carries us along
Touches both our arm
Lost in the dance as the room falls away into space
As we hold each other tight
Never did a moment feel so right
I feel something deep inside changing tonight

Turn it into love
Uh oh turn it into love
Turn it into love
Lets turn it into love

Lost in the dance as the room falls away into space
As we hold each other tight
Never did a moment feel so right
I feel something deep inside changing tonight

Turn it into love
Turn it into love
Turn it into love
Turn it into love
