with me
wherever I go
they don't care
saying "everything is ok"

I'm tired of their words
of what they say about me

I'm afraid of my headache
it shouts to me
you can't be satisfied
no more

the shadows will dance with you
OH no!!
You will smile and rise again
The shadows will dance with you
Oh no!!
the shadows will dance with you
OH no!!

I don't want to give up
Again
I feel a thing
My headache is pushing me over

The body falls apart
The floor is writhing Around me
I'm possessed by my headache
It shouts to me
"you can't be satisfied no more"

the shadows will dance with you
OH no!!
You will smile and rise again
The shadows will dance with you
Oh no!!
the shadows will dance with you
OH no!!
