So where do I even begin  
Bringing back three years from the dead  
Bringing back all the memories  
Still torturing me  
From all the words you've said

Tugging at the strings on my heart  
I'm not your first  
But I hope I'm your last  
Oh how many times I gave you the  
Benefit of the doubt  
I just want one more  
I just want one more

Tear out the pages  
I just want one more night with you  
Night with you  
Skip to the next song  
Something that doesn't remind me of you  
Remind me of you

So if this is what you want  
Then this is what you'll get  
I should have gotten out  
When I had the chance  
We were so in love  
We were so in love

Now the thought of your face  
Makes me sick  
Something's not right here  
Questions arising  
But one thing's for sure  
I just want one more  
I just want one more

Tear out the pages  
I just want one more night with you  
Night with you  
Skip to the next song  
Something that doesn't remind me of you, me of you

Sinking my teeth  
In your neck  
Tearing at the skin  
On my back  
The pleasure  
We have created  
Two lonely creatures  
Leads me to believe  
That I'm the best  
You've ever had  
That I'm the best  
You've ever had, b\*tch!

That I'm the best  
You've ever had, b\*tch!  
[Repeat until the end]
