I hate where I'm at  
Acting crazy like that  
I know that I've been wrong  
It's something I've been working on

And I don't know what to do  
It's changing me it's killing you  
I'd tear out my insides if I could  
But I don't know if it'd do me good

I'm sorry friends I'm sorry lovers  
To put us all in this mess  
I know we still got each other  
But I'm in distress

Cause every time that I feel like I've figured it out  
I can't seem to figure it in  
It's got nothing to do with me  
It's not even you, you see  
It's part of my chemistry  
It's this jealousy

In absolutely no position  
To be so needlessly unkind  
When I'm the one writing this fiction  
Make it real in my mind

It drives me crazy in the morning  
Who is this monster in the mirror  
I try to get the steam to fog it out  
But I just can't get it clear

Oh and I can't stand what I'm feeling  
It's just like poison in my veins  
I know that I'm speaking  
But I don't know what I'm saying

Cause every time that I feel like the world just got  
lighter  
It seems like my muscles give out  
It's got nothing to do with me  
It's not even you, you see

It's part of my chemistry

It's this jealousy

And I'm hearing your voice  
That you know it's your choice  
Maybe so  
And I know it's no use  
But it's the only excuse  
That I know, no no

Let me go  
Let me go  
Oh let me go  
Oh let me go

Now let's be real I feel just like a child  
Someone could be taking all my toys  
So call me dumb, call me wild  
See that's the thing with little boys

Oh now I can't get it out in the shower  
Or drink it off at the bar  
This sugar's gone sour  
And it's gone way too far

Cause every time that I feel like I'm riding so high,  
Feel on top of the world  
The b\*tch just keeps telling me no  
It's got nothing to do with me  
It's not even you, you see  
It's part of my chemistry  
This demon is killing me  
And oh Christ it's filling me  
It's this jealousy  
Oh, and I just can't believe  
In this jealousy,  
This jealousy for you  
Oh this jealousy,  
This jealousy for you
