(Billy Walker - Freddie Hart)

Give back my heart for our love is over  
The love I gave you was a love that was true not a lie  
Give back my heart female Casanova  
You made the game of our love a plaything of our love  
so goodbye.

But I still love you though and I'll miss you  
I know that's for certain  
But it's no life to live with all you do is give  
And get back in return all this hurtin'.

Go your way it's best that we'll part  
Find yourself a new love I'll find me a true love  
Give back my heart...
