(Harlan Howard)  
Billy Walker & Ray Price

They call me a fool and say it won't last  
That you'll break my heart like the ones in your past  
They're calling you wild you'll never be true  
But I call it heaven just being with you.

Perhaps I should listen, perhaps I'm not smart  
But I take my chances and follow my heart  
They call this a game you'll leave me some day  
But I call it heaven don't take it away.

--- Instrumental ---

Perhaps I should listen, perhaps I'm not smart  
But I take my chances and follow my heart  
They call this a game you'll leave me some day  
But I call it heaven don't take it away...
