(Billy Walker)

I gotta get me feeling better
She broke my heart and I let her
She took all the love I had and left me feeling bad
I gotta get me feeling better.

I guess I've loved for the last time
That's what I said the last time
Memories will kill me yet if I don't forget
I gotta get me feeling better.

I gotta get me feeling better
She broke my heart and I let her
She took all the love I had and left me feeling bad
I gotta get me feeling better.

--- Instrumental ---

The joint down the street looks like a glad place
To go and put a smile back on my sad face
Cause just look and see what her leaving's done to me
I gotta get me feeling better.

I gotta get me feeling better
She broke my heart and I let her
She took all the love I had and left me feeling bad
I gotta get me feeling better.

I gotta get me feeling better.
I gotta get me feeling better...
