"If You See My Baby"

Visit "[If You See My Baby](#)" on MotoLyrics.com

(Eddie Miller - Bob Morris)

If you see my baby while making your rounds
In some crowded night spot or cafe in town
Tell her I miss her and that I'm still around
If you see my baby in this lonesome old town.

Tell her to call me when she's all alone
'Cause I'm always waiting by my telephone
I'd still worship the ground where she walks around
If you see my baby in this lonesome old town.

--- Instrumental ---

Tell her to call me when she's all alone
'Cause I'm always waiting by my telephone
I'd still worship the ground where she walks around
If you see my baby in this lonesome old town...
